

Verónica Alvarez

UX/UI Product Designer · Design Systems · No-Code Builder

Buenos Aires, Argentina · veroal0032@gmail.com · [Portfolio](#) · [LinkedIn](#) · [GitHub](#)

PROFESSIONAL PROFILE

UX/UI Designer with an architecture background, combining spatial and systems thinking with end-to-end digital product design. Specialized in design systems, prototyping, and front-end development. Experienced in leading design decisions within multidisciplinary teams, managing projects from brief to delivery, and communicating trade-offs to stakeholders. I apply heuristic principles, continuous benchmarking, and AI-assisted workflows to optimize processes and raise the visual quality of every deliverable.

PROJECTS

Product Designer · Edvance — Multi-Brand Design System · No Country · Professional Simulation2026

- Multi-brand design system in Figma for Edvance (parent brand) and 3 sub-brands: Kira (courses), Blink (languages), Nubi (kids).
- Two-layer token architecture (Global + Semantic) with ~21 semantic tokens ensuring cross-brand consistency.
- Components delivered: Button (3 variants × 5 states), Input (11 semantic tokens), Navbar, Course Cards, Alerts, Toast.
- Led design decisions for the team, aligned priorities with UX Designer and UX Researcher under Agile/Scrum methodology.
- Enforced WCAG 2.1 AA compliance across all brands, balancing accessibility with each sub-brand's visual identity.

UX/UI Designer & Developer · Matcha Chá — Self-Ordering Kiosk · Academic Project · Coderhouse2026

- End-to-end design: user research, information architecture, wireframes, and hi-fi prototype in Figma.
- Built with React + TypeScript + Supabase + PostHog + Resend. Deployed to production.
- Applied real kiosk usability constraints: touch hierarchy, minimal cognitive load, optimized purchase flow.
- Used AI tools to accelerate research, content generation, and flow iteration throughout the design process.

UX/UI Designer · Petlink — Mobile App for Pet Owners · Academic Project · Coderhouse2025

- End-to-end case study: benchmark, user persona, user flow, low and high-fidelity wireframes in Figma.
- Applied Nielsen's heuristic principles to evaluate and improve usability across the main app flows.
- Designed a complete UI Kit: color system, typography (SF Pro), iconography, button and notification components.
- Hi-fi prototype covering onboarding, 24/7 vet assistance, marketplace, and pet-friendly places exploration.
- Validated design decisions through 5 user interviews and usability testing with 3 participants.

UX/UI Designer & Developer · Cosechar — Seasonal Produce Web App · Personal Project2026

- Designed and developed a bilingual (ES/EN) seasonal produce discovery app with season-based color theming.
- Built with Next.js, deployed on Vercel. Integrated analytics and sourced data from Argentina's Ministry of Economy.
- Live at: cosechar.vercel.app

PROFESSIONAL EXPERIENCE

3D Designer & Architect · Freelance · Remote · Venezuela / USA2019 – 2025

- End-to-end project management for residential and commercial clients: brief, 3D modeling (SketchUp + Lumion), technical drawings (AutoCAD), and final delivery.
- Direct client relationships, feedback-driven iterations, and high-quality visual presentations.
- Coordinated simultaneous deliverables, adapting solutions to technical and budget constraints.

Site Supervisor & Designer · Inversiones Saltarrana · Caracas, Venezuela2022 – 2025

- Led full renovation of a 200m²+ apartment, completed in 2 months — on time and within scope.
- Managed a multidisciplinary team of contractors and specialists across design, construction, and logistics.

Senior Architect · Grupo FPS · Caracas, Venezuela2020 – 2022

- Produced architectural drawings, 3D models, and technical documentation for complex commercial projects.
- Delivered visual presentations to clients, translating technical complexity into clear, compelling communication.

EDUCATION & TRAINING

UX/UI Design Program · Coderhouse2025

Design Systems · Prototyping · User Research · Advanced Figma · Heuristic Principles

Product Creation with AI · Coderhouse2026

AI-assisted product workflows · Rapid prototyping · No-code tools

Design Systems Specialization (39 modules) · UXChristopher2025 – 2026

Token architecture · Component systems · Documentation

Webflow 101 Course · Webflow University2026

Platform fundamentals · Interface and project structure

Architecture Degree · Universidad Simón Bolívar · Caracas, Venezuela2017

GPA approx. 4.2 / 5.0 · Complex project management · Multidisciplinary coordination · Technical communication

SKILLS

Design: Figma (advanced) · Framer · Adobe Illustrator · Photoshop · InDesign · Canva

No-Code: Framer · Webflow (basic)

Development (basic): React · Next.js · TypeScript · Supabase · Vercel · GitHub

Analytics: PostHog · Google Analytics

UX: User Research · Usability Heuristics · Information Architecture · Wireframing · Mid/Hi-fi Prototyping · Design Systems · Benchmarking

Methodology: Design Thinking · Agile/Scrum · Spatial & Systems Thinking · AI-assisted design workflows

Languages: Spanish (native) · English (B2 — Upper Intermediate)
